## **INFERNO: THE INFERNAL RESURRECTION!**

While waiting for Inferno Metal Festival 2022 we got a very cool event we have called **THE INFERNAL RESURRECTION** that will take place at Sentrum Scene on June 17th 2021! The bands that will play are **IHSAHN**, **CADAVER** and **TULUS**. All three bands will also perform at Inferno Metal Festival 2022. There will be a very limited number of tickets for sale at Ticketmaster from Friday June 11th at 09.00!

### **IHSAHN**

Ihsahn comes from Notodden, Norway, where he at the age of thirteen started playing in what developed into one of the world's most influential black metal bands, Emperor. At only seventeen he recorded and performed on the mighty "In the Nightside Eclipse" album, which has many times been voted as one of the top metal albums of all time. After Emperor released their last album, "Prometheus - The Discipline of Fire & Demise" in 2001, Ihsahn has focused on his solo work and has by now released seven albums. Ihsahn has recently released a couple of EPs. One of them is "Telemark" that the concert will be focused around. We are happy to have Ihsahn join us for this very exclusive event!

### **CADAVER**

Cadaver was one of the first death metal bands from Norway. After several demo tapes between 1988 and 1990, the band released their debut album "Hallucinating Anxiety" in 1990. Often considered has the very first Norwegian death metal album. Two years later they followed up with "...in Pains" before the split-up in 1993. In 1999 founding member Anders Odden (Order, ex-Celtic Frost, Satyricon) brought the band back to life under the name Cadaver Inc. After a few years the band changed their name back to Cadaver before they disbanded again. Cadaver is now back and they released the brutal new album "Edder & Bile" in 2020. Norwegian death metal at its best!

## TULUS

Tulus is a Norwegian black metal band formed in 1991. The band released three classic albums before they disbanded in 2000 and members of Tulus later went on to form the band Khold. In 2006 Tulus returned and the following year they released "Biography Obscene". This led to an exclusive gig at Inferno in 2008, performing for the second time in the bands history (Their first gig was at Mars in 1999). In 2012 the band released "Olm og bitter" and in 2014 the band offered another exclusive gig at Inferno Metal Festival. Tulus released a brand new album called "Old Old Death" in 2020 and we sure look forward to see them live again!
